OBJECTIVE

Seeking to leverage my background in Applied Math and Computer Science to drive innovation in complex technical problems. A solution is never done alone and I dream of being part of a great team that can push the boundaries of what is possible. I know my limitations and hope to learn from experts in the field, while taking the initiative to contribute from day 1.

EXPERIENCE

- **VetAlign** Sep 2025 - Present
Denmark
Partner / Co-founder
 - Partner in a start-up within the Veterinary sector.
 - Fully functional SaaS product built on C# and NextJS
- **NORDIC MARINE PARTNER** Jan 2024 - Jul 2025
Denmark

 - Responsible for Fleet Performance and developing management tracking tools.
 - Built an automated system for retrieving monthly fleet reports and analyzing Lube Oil Performance
 - Developed performance analysis tools using Python, Excel, and Power BI.
 - Provided in-depth reports on optimal anti-fouling based on company strategy.
- **TRAINING SHIP DANMARK, M/Y CHRISTINA O** Jan 2020 - Sep 2022
Global
Quartermaster (AB)
 - Responsible for educating the next generation of deckhands in the Danish Fleet.
 - Maintained high standards onboard a traditional full-rigger for educative purposes.
 - Managed deckhand operations and receptions during international voyages.
- **WIDEX** Aug 2019 - Dec 2019
Denmark
Project Manager Assistant in R&D
 - Helped present a new platform project valued at 70M Euros.
 - Managed legal papers and salary discussions for international staff work permits, FDA Audits.

EDUCATION

- **Danish Technical University (DTU)** Sep 2022 - Jun 2027
Lyngby, Denmark
Msc Mathematical Modelling and Computation
 - Current educational progress: 1st year Masters student.
 - Exchange at top university in Switzerland, EPFL, Fall 2024
 - Completed Bsc General Engineering – Cyber Systems, Average grade: 9.13 out of 12.
- **Frederiksborg Gymnasium og HF** 2016 - 2019
Hillerød, Denmark
Higher Education
 - Average grade: 11.6 out of 12.
 - Focused on Mathematics, Physics, Chemistry, and Biotechnology.

ACADEMIC ACHIEVEMENTS

[P.1] Mathias Markvardsen. (2025). Toward a Testbed for the Internet of Underwater Things: Challenges and Considerations.

SKILLS

- **Programming & Tools:** Python, Typescript, F#, Java, C#, Power BI, Excel, SQL, ESP32, Forecasting, Time Series Analysis & ML, Docker
- **Languages:** English (Fluent), Spanish (Fluent), Danish (Native)
- **Certifications:** Ordinary Seaman (OS) STCW Certified, EXPLORE (start-up programme)
- **Leadership:** Leadership in stressful situations, Helicopter view, Growth Mindset
- **Tinkering:** I appreciate playing around with terminal, tmux, neovim, homeserver etc.
- **Hobbies** Sports addict, reading books, spend time with family.
